Change Settings	1. Open Menu 2. Use Button "Settings" 3. Change Quality Settings and/or Music Settings		x			
Log-Out	1. Open Menu 2. Use Button "Log Out"		x			
Any suggestions?						
Start menu: Graphic settings icon (especially on the start screen) is not intuitive. Registration, Birthday: date in the future is possible. You can click "accept" in the character creation without choosing any character. Logout: "do you really want to log out" text. Settings: Quality: Quality high/low rather than "high quality on/off". logout: "do you really want to log out?"
